

Tawi Consult Project Datasheets

A. GENDER; AGYW; ABYM; AND CHILDREN/MVC

1) Gender Analysis of the Tanzania's Simplified Birth Registration System

Title: Institutional consultancy to undertake a gender assessment of the birth registration system in TZ.	
Name of client/donor: UNICEF Tanzania	Address of client/donor: United Nations Children's Fund (UNICEF) Plot 133 Karume Road, Oysterbay, P.O. Box 4056, DSM
Contract number or other reference number: 43361208	Date of contracts Oct 2022 and Mar 2023
Date work began (Expected) Oct 2022	Date works completed – ongoing
Contract amount in USD: App. 75,000	
Technical point of contact Mr. Hosea Mitala: Tel =255.78.699.9630 hmitala@unicef.org	10. Contractual/ financial point of contact Ms. Samayog Karmacharya skarmacharya@unicef.org
Location of work – 6 Regions of Mainland Tanzania: Mbeya (1 district), Katavi (1 district), Mtwara (1 district), Mwanza (1 district), Kigoma (1 district) and Dodoma (1 district)	
Description of work (nature and scope). Use continuation sheet if needed. The gender assessment of the Simplified Birth Registration System had the following objectives: <ul style="list-style-type: none"> Assess whether the Simplified Birth Registration System is gender responsive and whether the broader programme that provides outreach and generates demand/uptake of vital statistics registration has been implemented in a gender-responsive manner. Undertake a desk review to examine the gender gaps and opportunities existing in the legal systems that govern birth registration in Tanzania. How do the current legal frameworks, location, ethnicity, cultural, economic, or social barriers discourage or prohibit women and girls from registering their vital events Highlight the birth registration data gaps and barriers. Where are women least likely to be counted, registered, or recognized? How can the Government and other stakeholders increase demand for registration among these vulnerable populations? Recommend how the birth registration programme can better engage men to participate in vital events registration, alongside women, and community leaders to ensure that vital events pertaining to their families are legally recorded. Provide guidance on how the birth registration programme can be used as a data-use tool to develop evidence-based strategies or design programmes that facilitate registration of vital events for women and girls. Provide recommendations on how RITA can increase the amount of data generated from the Simplified Birth Registration System to use and promote evidenced-based policy making for gender equality. 	
In accomplishing the above objectives, Tawi Consult delivered the following: <ul style="list-style-type: none"> Inception meeting held with UNICEF, A working group involving Government stakeholders and RITA. Draft work plan (with timeline) presented and finalized. Development of the assessment tools for qualitative research, validation, and approval by UNICEF, RITA, and other government stakeholders. Ethical Clearance aligned to Government set of ethical principles Research tools in English and Kiswahili for data collection Ethical clearance Training of data collectors conducted Finalized training materials Fieldwork completed Raw qualitative data- Narrative Report Data analysis, quality check, and report writing Final data Draft assessment Stakeholder meeting organized with UNICEF, RITA and other key government partners to present the findings PPT presentation of objectives, methodology, and key assessment findings; meeting report; outline of the guidelines Review and incorporate comments from stakeholders. Final stakeholder meeting organized to validate the final report. Revised assessment report with feedback incorporated. Final assessment report submitted with concrete recommendations for meeting their specific needs and interests.

4) Baseline Evaluation of the MVC Pamoja Tuwalee Project

Title: Conducting Baseline Assessment of a USAID-funded Pamoja Tuwalee project under Pact Tanzania	
Name of client/donor: Pact Tanzania Pamoja Tuwalee Project	Address of client/donor: Pact Tanzania, P.O. Box. 6348, Dar es Salaam Tel: +255.22.276.1933
Contract number or other reference number: Nil	Date of contracts May 2012 and June 2013
Date work began (Expected) After signing of contract	Date works completed June 2012 and July 2013
Contract amount in USD: App. 62,000	
Technical point of contact Ms. Daisy Kisyombe, +255.76.754.1641 dkisyombe@pactworld.org	Contractual/ financial point of contact Mr Godwin Protace: Tel =255.76.783.2891 gprotace@pactworld.org
Location of work – 6 Regions of Mainland Tanzania: Mwanza (8 districts), Lindi (6 districts), Mbeya (10 districts), Rukwa (4 districts), Ruvuma (6 districts), and Katavi (2 districts)	
Description of work (nature and scope). Use continuation sheet if needed. Tawi Consult (then trading as DataPlus Consulting) was contracted to conduct a baseline evaluation survey for the Most Vulnerable Children project Pamoja Tuwalee with specific objectives of: <ul style="list-style-type: none"> Assessing types of vulnerabilities, predisposing factors and how these affect the care and development of children. Assessing available support/opportunities for support and services to vulnerable children, highlighting key partnerships and linkages that can be established / strengthened in order to improve service quality. Establishing linkages between organizational development outcomes and child health outcomes to better understand what types of organizational skills are most critical to realizing better MVC outcomes. The baseline survey sought to answer the following specific questions: <ul style="list-style-type: none"> To what extent are children accessing essential education, food and nutrition, health care, shelter, protection, and psychosocial support services? How effective are community-based support systems in providing services to vulnerable children and their families? Which aspects of MVC support are more effective and sustainable and have been or can be recommended for improving child well-being in Pact Pamoja Tuwalee regions? What are the needs and capabilities of MVC families to increase their ability to meet the basic needs of most vulnerable children? In conducting the baseline evaluation survey, our company completed the following tasks: <ul style="list-style-type: none"> Provided training and training agendas and materials for data collectors prior to data collection Translated data collection instruments in KiSwahili and uploaded into Mobenzi Researcher Collected data from 36 districts of 6 regions of Mainland Tanzania for over 4 weeks (in phases) Provided codebooks, cleaned and de-identified full datasets, and SPSS syntax. Performed basic data analysis Wrote a field report The work was carried out smoothly and without any major challenges.
